

GCMS Student Merit Scholar Semi-Finalist

Principal Lawrence C. McCullough of Granite City High School announced today that one of the school's students has been named a semi-finalist in the 1960-61 National Merit Scholarship competition. She is Linda R. Davidson, a low senior daughter of Mr. and Mrs. Lloyd Davidson, 2331 Iowa street, who is taking the college preparatory course.

She is among 10,000 students who scored highest on the National Merit Scholarship Qualifying Test, a test of educational development, given in more than 13,000 high schools last spring. The semi-finalists will take another examination, the three-hour Scholastic Aptitude Test of the College Entrance Examination Board, to be given in testing centers throughout the nation Dec. 3. Those whose scores of the second test substantiate their performance on the qualifying test, and who are endorsed by their high schools, will become finalists in the competition.

In past years, more than 95% of the semi-finalists have become finalists, who are eligible for scholarship awards sponsored by 115 business and industrial organizations, professional societies, foundations, individuals, and the National Merit Scholarship Corporation itself. The list will be announced next May.

In the final phase, high school grades, extra-curricular activities, school citizenship and leadership qualities are evaluated along with scores on the tests.

Mudge Bombs Again, Has Reunion With Kennedy

State's Attorney Dick H. Mudge Jr. flew his 80th aerial bombing mission Sunday afternoon.

The Madison county prosecutor dropped campaign leaflets and pamphlets publicizing today's visit of Mudge's Harvard Law School classmate and political colleague, Sen. John F. Kennedy.

While Mudge's 80th mission was widely observed and somewhat spectacular, his No. 79 mission—so-called—was attended by headlines and statewide reverberations. This was his "bombing of Cold Spring, where gambling casino on Collinsville road, which the prosecutor helped put out of commission a year back.

Mudge has some 78 wartime missions to his credit as a single-engine plane pilot. His decorations include a pair of distinguished flying cross, his wartime background includes that of being a prisoner of war.

Today there was an off-campus reunion of Harvard alumni when Mudge greeted and joined Kennedy in the presidential campaign motorcade.

Aside from being a Democratic part of the senator, and a Harvard classmate, Mudge is a somewhat comparable military record, although Kennedy fought in the sea rather than in the air.

Venice Girl's Heart 'Good,' Skilled Surgery Made It So

Less than a month after being on the operating table for a combined period of 11 hours and very nearly succumbing to a massive internal hemorrhage, 13-year-old Kathryn Yearman is back with her eighth grade classmates and books at the Venice public school.

Daughter of Mr. and Mrs. Albert Yearman, 210 Abbott street, Venice, Kathryn has happily resumed her normal home and school pattern—and is back in the band—but there was a period last month this did not appear to be at all in the books.

Her recuperative powers have been remarkable, her parents and friends point out, in view of the seriousness of her operation.

"Open Heart" surgery Kathryn underwent "open heart" surgery to close an aperture in the top quadrant of her heart, a delicate and surgically complex procedure, necessitating rigorous post-operative care.

She was at the Firms Desloge Hospital at St. Louis, and was under the knife for some six

hours during her operation on Sept. 2. However, due to post-operative bleeding, a second operation was necessary the following day. The hemorrhage came close to proving fatal for Kathryn, her mother recalled today.

But Kathryn recovered, returned home on Sept. 17, and was back in school last Monday.

Reigning Weight Her heart condition did not permit her to obtain a sufficient supply of oxygen. It was hard for Kathryn to "get her breath" and she lost considerable weight which she is regaining.

She was formerly cheerleader at Venice school and otherwise had been very active until diagnosed by her "open heart" condition.

Kathryn's father is disheartened at the National Lead Co. and she has a sister, Jeanette, 18, and a brother, Charles, 8.

Her parents have before them some mighty sizeable hospital and surgical bills, but these helped to write a happy ending to Kathryn's story, and gladly will be met, says Mrs. Yearman.

Building Industry Is Important To Growth

Nearly 100 contractors, industrialists and labor leaders from the Illinois Metropolitan Area attended the first annual meeting of the Council of Contractor Associations Friday night at the Missouri Athletic Club and heard James P. Cannon, superintendent of the Illinois Division of Industrial Planning and Development, talk on "The Importance of the Construction Industry to the Development of the East Side Industrial Area."

Cannon pointed out that industrial growth of any area depends on its good reputation for production, particularly since many states are offering special inducements to attract new industry, such as Alabama which forgives taxes for the first 10 years.

"There are many tests a community must survive in order to attract new industry," he said, "but this one of good labor relations and good production is the most important. No business or industry is going into an area unless it feels it can make a profit."

Cannon also emphasized that since nearly 90% of new jobs are created through expansion of existing industry, it is even more important to make certain that your present industry has an altitude in which it can grow."

John C. Fallon, executive director of COCA, presided at the meeting.

Minor Burns In Furnace 'Explosion' Treated

John S. Meszaros, 45, was treated by his family physician for burns received late Friday afternoon while cleaning the oil-burning furnace at his home at 2828 Vamecki road.

The force of an explosion knocked Meszaros to the floor. He sustained minor burns to his hand and finger, and stings about the face and head. Painful, they were not regarded as serious.

He was taken by ambulance for treatment by an East St. Louis physician, and was able to return to his work today.

The pilot light was operating while Meszaros was cleaning the heating unit for fall and winter use.

Homeowner FHA Loan Benefits Cited By Wolf

Attention of Quad-City homeowners was directed today to benefits resulting from the recent extension of the Federal Housing Administration's Title I by the president of the Granite City Real Estate Board.

President Samuel W. Wolf explained that the extension of Title I program for another year affords homeowners a convenient means of financing repairs or additions for more comfortable living in the cold months ahead.

Wolf noted that with crisp weather, many persons are thinking of home improvements and that realtors, as professional experts in real estate marketing, will be happy to explain the operation of FHA Title I for financing such steps.

Briefly, he summarized under Title I the FHA insures financial institutions against losses on loans made to finance alterations, repairs and improvements to existing homes. The maximum of such an insured loan is \$5000. Loans up to \$800 are repayable in periods up to three years, and larger loans may run as long as five years. The financing charge cannot be greater than a discount of \$5 per \$100 per year up to \$2500. (A discount represents the difference between the face value of the loan and the amount actually advanced by the lender.)

Wednesday Opening For SA Recreational Center

To accord Quad-Cities young people an additional leisure time outlet, the Salvation Army will open its new recreational center at 1824 State street, Granite City, on Wednesday.

Housed in a 40 by 60-foot former warehouse, and remodeled and designed for its new use, the center will operate Mondays, Wednesdays and Thursdays from 7 to 9 p.m.

Capt. Mildred Walker, commander of the Army corps here, explained today that the new Salvation Army Recreation center is open, free, to all Quad-Cities youngsters and teen-agers up to and including those in the 12th grades.

Opening Day Features
Wednesday's opening will not be a spectacular one, Capt. Walker acknowledged, although she pointed out that a good number of young people are expected to be on hand to take early advantage of the unit.

At the State street center, youngsters will have available a full panoply of games and activities, including shuffle board, ping pong tables, checkers, chess, dominoes, darts, other table

games, television; there will be a small library and soda and candy available.

All but the refreshments are free to all youngsters, and will be phased. The activities program will be augmented later.

The weekly schedule for the Army's Recreational center follows:
Monday, 7-9 p.m.—Open to youngsters up to and through the 12th grades.
Wednesday, 7-9 p.m.—Teen-age night, open to 10th, 11th and 12th graders.
Thursday, 7-9 p.m.—Open house to all young people of the Tri-Cities.

Lee Reid will be center director. A teacher here, he served as Granite City Park district recreational director at Logan school during the summer.

Capt. Walker pointed out to the day the Salvation Army is a beneficiary of the United Fund campaign, and under 1961 allocations, it has been apportioned \$19,860.

Army representatives, she emphasized, are joining in the campaign to meet the UF goal for the drive opening Oct. 15.

Board Preparing To Name Schools

Naming of new Granite City elementary schools is planned for the school board meeting on Oct. 11. President Homer Huber has asked the board members to study suggested names and be ready to make a final decision so dedication ceremonies can be held before cold weather arrives.

Suggestions by committees from each school are as follows:
East 23rd street school—Franklin D. Roosevelt, Thomas Jefferson, Thomas E. Edison, Horace Mann and Benjamin Franklin; Wilson avenue school—Woodrow Wilson, Wilson avenue, Glenview, Theodore Roosevelt and Clarence Howard; Maryville road school—Thomas Jefferson, Benjamin, John Dewey, Maryville and Clara Barton.

Supt. Harold M. Kaiser has announced that a similar committee of students, parents, teachers and administrators has been formed at the new West 25th street junior high school to suggest names to the board.

In completing its staff for the 1960-61 year, the school district has encountered a difference of opinion over how long prospective employees should reside in this area. A 6-1 vote was recorded on hiring Mrs. Carolyn Jane Mendez as clerk in the Central junior high school office.

New Cafeteria Workers
Huber dissented after learning that she had resided in the district about one year. Residence of 10 cafeteria workers hired on a four-hours-a-day basis and two new custodians varied from five to 35 years. Dr. Kaiser recommended the clerk hiring, saying she is an experienced school secretary.

Crash On Nameoki Road

According to the report, Durich was attempting a right turn and was forced to stop for traffic when LaLonde's auto struck the rear of his car.

West Jr. High Opens Grid Season With 19-6 Victory

West Junior high school, which opened for the first time this September, inaugurated its football program in convincing style Thursday afternoon, scoring three times in the first half to defeat visiting Bethalto 19-6.

The Chiefs scored the first time they gained possession of the ball when halfback Ted Wasylik went 60 yards up the middle to paydirt on the first play from scrimmage.

Later in the first period it was Wasylik again, this time taking a short pass from Halfback Mike Thebeau on an option play and scoring 20 yards for another score. The extra point attempts following both scoring plays were unsuccessful.

The situation was reversed in the second period when Wasylik threw to the Chiefs pass on the same halfback option. Thebeau went 75 yards down the sidelines to score another. Quarterback Ricky Reutebuch passed to End Craig Nomm for the only successful Chief conversion, and West led 19-0.

A freak play led to Bethalto's only score, when a West defender deflected a Chiefs pass into the arms of the intended receiver while trying to intercept in the third period. Neither club could cross the other's goal line in the final quarter.

West Coaches Carroll Sanders and Conrad Champion said they were "pleasantly surprised" by the Chiefs' pass play. Six of the nine aerials tossed found the mark. On Thursday afternoon, the Granite City Steel Credit Union, A. O. Smith Co. Post Office 2, Kelly Tar & Chem. 1.

Warriors Tie For 2nd in Harrier Meet On Friday

Dave Moss finished fourth, the best a Granite City high school cross-country runner has been able to manage this season, as the Warrior harriers finished in a two-way tie for second place with Collinsville in a triangular meet Friday afternoon in Edwardsville.

The Bengals captured first place with a low point total of 31. The Warrior and Kabok squads were deadlocked at 49 points each. Jim Wille of Collinsville was the individual winner over the mile-and-9/10ths course in the time of 9:58.

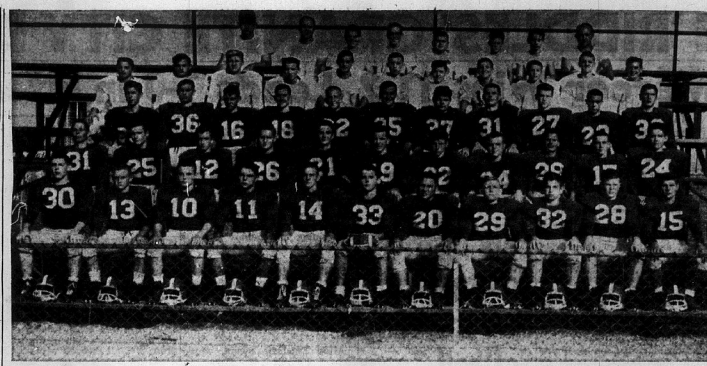

Warrior Coach Dick Harmon's earlier prediction that his squad was improving was borne out Friday. Collinsville beat Granite City by 16 points in an earlier meeting of the two cross-country squads.

Moss' fourth place time was 10:17. Other Granite City finishers were Gaynell Robin senior, Keith Veizer ninth, George Bodi 14th, Charles Kennedy 15th, Bob Auvary 18th, Jim Ritchie 21st, Larry Keel 22nd and Mike Ratliff 29th.

Harmon's outfit will travel to East St. Louis for a 4 p.m. run tomorrow against the Flyers, who are ranked behind Alton as the No. 2 cross-country power in the Southwest Conference.

Trojans, Comanches Battle To 6-6 Deadlock Friday In Midwest Loop Opener At Cahokia

Madison's Trojans and the Cahokia Comanches have yet to come up with the winning combination in prep football this year, the clubs battled to a 6-6 tie Friday night in Cahokia in the first Midwest Loop opener for this fall.

Dupo and Roxana, the 1-2 picks in pre-season polls, did not both, he said, suffer frustration Friday. The Tigers rolled over improving Highland 20-7, while Roxana shut out Bethalto — which had yet to score an opponent's goal line this season — 24-0.

Madison was very nearly forced to absorb its third straight defeat, trailing 0-6 after Cahokia had pushed across a touchdown late in the third quarter. The Big Green was apparently beaten as the ballgame entered its final 30 seconds.

Final Score By Drayton
But Halfback Carl Drayton skirting left end from 15 yards out to tie the score. Quarterback Mick Gravelle tried the middle of the line for the extra point, but the entire Comanche forward wall was waiting on the line.

Ken Griggs, again Madison's leading rusher, intercepted desperation Cahokia pass after Madison kicked off. He ran it back 10 yards and was downed as the gun signaling the end of the game went off.

Becker Blocks Kick
Speed merchant Louis Murdock had given John Dal Santo's crew a one-12 lead when he dashed up the middle five yards out in the third quarter. The kick for the extra point was blocked by Fred Becker.

Madison mentor Glen Pickering, high on a defense which has allowed only 13 points in its last two games, was just as conversely critical of his offense.

Braves Batter Madison Frosh 26-0 Thursday; Parker Scores Two TD's

Coolidge Junior high school scored in each of the first three quarters in Madison Thursday afternoon, and coasted to a 26-0 football victory over the Trojan first-year squad.

Right Halfback Jim Parker scored twice for the Braves, going 20 yards on a handoff in the second quarter and then sweeping left end and cutting back for 28 yards and a score later in the same period.

Quarterback Bob Karandjeff opened the scoring when he went from three yards out in the first quarter on a rollout around end. He passed to End Ron Yates for the extra point.

Bob Pyle added one extra point in the second quarter on a full-back plunge.

Early in the third quarter, with the Braves leading 20-0, Left Halfback Jerry Nelson scored on a quick opener from 22 yards out to climax the Coolidge offensive attack.

A 60-yard touchdown pass play by Karandjeff to Yates a few moments later was called back. Coach Frank Kraus used his second and third units for the greater portion of the second half.

Madison threatened late in the final period. On the last play of the game, a 40-yard pass from Quarterback Louis Leonard to End Mike Garcia put the ball on the Coolidge two-yard line.

The victory gave the Braves a 2-0 record this year. The squad has won 23, lost four and tied two since taking up football in 1956. Madison frosh are 0-2 this season.

Kraus cited improved passing by Karandjeff, while Madison Coach Bob Page again singled out the defensive play of Tackles John Olesky and Clinton Robinson and Guard Harry Harrell.

Coolidge will host Collinsville in its next game Thursday afternoon, while Madison's frosh-squad will be at Dupu on Oct. 11.

THE STORY
OF THE
COUNCIL-MANAGER PLAN
The Council-Manager form of government (sometimes called the city manager plan) is simply a sensible, modern way to handle municipal housekeeping.
A big reason for its success is its simplicity. The voters elect councilmen. The council appoints and may remove the city manager, a trained administrator. Subject to civil service provisions he is responsible for right to fire the City Manager at any time.
So successful and satisfactory as it is been that, in half a century, the council-manager plan has become the most popular type of government for all U. S. cities of over 10,000 population. It is used by about one-third of the communities with over 5,000 and 10,000. Since World War Two from 75 to 100 places have adopted it each year.
It is the dominant type of government for the cities of some states; for example, in Virginia all cities over 10,000 and 60 per cent of the 111 incorporated municipalities with over 10,000 population have the plan. More than 34,000,000 Americans enjoy the benefits of council-manager government.

HOW THE PLAN WORKS
The essential features of the plan are:
1. A short ballot with few elective offices and all of them important enough to attract full public scrutiny.
2. A small council which holds all the city's powers.
3. A single professional executive in charge of municipal affairs and responsible to the council.
It takes more than the ability to win an election to draw up a sound budget, select the most appropriate types of fire fighting apparatus, or plan the services which will be required by a city or town ten years from now.

UF Professional Division To Begin Work This Week

On the right, to the left—and all round town—Tri-Cities Area United Fund campaign-oriented committees and groups are meeting this week to put things in ship shape for the fund-raising grand opening on Oct. 13.

And his zoner, Mayor Leonard Davis, has called a meeting of all city employees to consider the formation of a Continuous Giving chapter or club, somewhat comparable to those in industry.

In the call the mayor made it all-encompassing, including police, firemen, sanitary and street workers, city hall employees and others on the municipal payroll.

First of this week, the Contractors' section chairmaned by Carl Lomax, will hold its first "progress report" meeting at 7:30 tonight at the Rose Bowl restaurant, 3120 Namekook road.

Wednesday noon, the Professional division will be at the Rose Bowl to hold its initial pre-campaign session and to plan campaign strategy.

At 1 p.m. Wednesday, the Granite City Engineer Depot campaign workers will hold their second get-together, get campaign kits and work assignments. The place, the Depot post theater.

Granite City's new, main fire station will be the converging point at 7:30 p.m. Thursday for city employees. This location will enable many firemen to attend, it was pointed. Mayor Davis will speak as will John D. Solenberger, executive director of the United Fund.

Campaign General Chairman James L. Hamilton Jr. will join the command echelon of the Professional division at its Wednesday noon session.

Division Leaders Paul Lichtenberger is division chairman, Paul Kelley, Co-chairman, and here's the way assignment sheets have been made out:

To solicit lawyers, Atty. William L. Beatty and Atty. Randall Robertson; dentists — Drs. Kenneth J. Hillmer, Curtis Green, Fred Elmore and Vasil Vassilev; optometrists — Dr. Stanley Moore; physicians — Dr. Felicia Koch; others — Dr. Elwood Ackerman.

senior and junior high schools were dismissed and the students joined the gathered thousands.

As City Chairman Robert Gibson announced the caravan's departure from Alton, cheers and groans were audible.

The route was followed by police radio as it made its way here along State Route 111.

However, a premature arrival at Mitchell was announced to the cheering crowd. Later, it was announced over a loud speaker at 10:27 that the caravan had made it to the junction of Routes 66 and 111.

Hundreds lined the highway at Mitchell and the caravan slowed to a snail's pace.

Then, Gibson announced, "They've just left Mitchell."

An aerial bomb went off at Namekook and Pontoon roads, and moments later, the blinking red lights of police escort—local, county and state—rounded the Namekook road curve.

Police of Granite City, Madison and Venice as well as civil defense auxiliary police, gave up trying to hold the crowd back from the speakers' platform.

The caravan entered the parking lot through a path cleared by police, and the Senator's car pulled directly to the stairway to the speaker's platform.

Rehearsal Pays Off The same procedure was followed in Venice as police worked with Kennedy's advanced party last week and rehearsed the procedure.

There was no delay in the caravan moving out from the two local stops.

The drive from the shopping center to Venice was not as smooth as the candidate was sitting on the back of a convertible and waved to thousands along the route through Granite City and Madison into Venice.

Many nurses and patients at St. Elizabeth Hospital were at windows or in front of the building.

At 20th street and Madison

avenue, a man held up a Nixon placard.

In some points in Madison and Granite City, school youngsters virtually blocked the path of the caravan and it was forced to halt and proceed at a snail's pace.

However, the procession was able to continue after this point at Venice on National City with a minimum of delay.

The crowds dispersed quickly after Kennedy's departure.

The bell inside Venice schools rang for classes to resume only moments after the last car of the caravan turned off Broadway onto Fourth street.

Only a few rained-out and battered placards were noticed on the ground.

From Here To Stockyards The National City stockyards was the post Quad-Cities stop of the Kennedy caravan.

Here amid TV cameras and lights and to the accompaniment of livestock sounds — a 400-voice — the presidential candidate delivered a televised address.

Among his audience were stockmen and Midwest drovers at St. Louis for a cattlemen's meeting, along with employees and a turn-out of Illinois-Missouri partisans.

Then, a drive through East St. Louis and another brief talk, and to Belleville for a luncheon meet with Madison and St. Clair Democratic "brazas."

Some 250 Madison county Democratic leaders, including numbers from the Quad-Cities, had tickets for the luncheon.

Nor was the Kennedy day anywhere nearly completed at Belleville. There was a dip further into the eastern shoreline area, and a giant rally set for tonight at Springfield, Ill.

The pace, members of the entourage said, was typical of the speed of the campaign, which has but five weeks to go before the Nov. 8 election day decision.

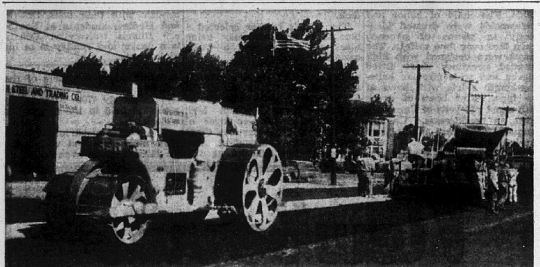

Meanwhile, Quad-Cities Democratic leaders, including the Nov. 8 election day decision, Cross-street streamers, flags and hunting will come down; a lot of campaign buttons will blossom on coat collars and on dresses. That's the way the Democrats want it, albeit.

Undergo Surgery

The following are recovering at St. Elizabeth Hospital from surgery which they underwent since Thursday: Cordie Dowdy, 604 Kirkpatrick Homes; Ralph Dickard, Fairmont City; and Charlotte Rickert, 2550 Hemlock avenue.

CROWD AT UNIVERSITY SITE during a rally Saturday heard John McBride, who is shown speaking in the photograph, and others urge passage of the state university bond issue Nov. 8. Vice-president and general manager of the Union Trust and Refining Co., he is chairman of the Southwestern Illinois Citizens' Committee to promote the bond election. The scene was the new university campus between the Quad-Cities and Edwardsville.

TOP SURFACE FOR BROADWAY in Venice is being applied by workmen operating the roller and paving machine shown in use in the above photograph. Started Thursday, the blocktop project is expected to be finished this week. A concrete divider strip has been completed.

as LaSalle, Sangamon (Springfield), Macon (Decatur) and Champaign.

The comparison shows that Madison county's per capita assessed valuation is well above the average for the state, the average for the wealthier counties in the north, or any other downstate county except Peoria.

Criticism From North The statistics are regarded as having extra importance due to the practice of northern Illinois legislators and observers, who have formed a habit of saying that downstate Illinois gets a "free ride" by assessing its property at lower values than prevail in the north.

The anti-downstate comments are made during the Illinois legislature's never-ending search for a method of equalizing the tax burden, especially that part for which assessments are made.

DAV Chapter Launches Forget-Me-Not Drive

Disabled American Veterans Quad-City Chapter 53 today opened its annual "Forget Me Not" fund drive, which will continue through Saturday.

The "Forget Me Not Week," the DAV obtains funds to conduct its service work and aid needy veterans, veterans' widows and dependents.

The small blue flowers will be sold in local business districts Friday and Saturday, it was announced by James Miller, drive chairman. The organization is chartered by Congress as the official agency of the nation's wartime handicapped.

More of the school financing burden.

No Benefit From Inequities Results of the survey are described as showing that Madison county does not benefit from whatever inequities exist in present methods of levying taxes; that its payments to the state in sales and gasoline taxes, on a per capita basis, are adequate; and that it is doing its share both in supplying the local share of school funds and in contributing to the state's "jackpot" for distribution to schools.

The survey did not reveal the portion of each county's valuation represented by industrial assessments.

However, a check of industrial firms in Madison county showed they believe that the basis in this county is as high or higher than in other counties and other states.

39% Industrial Industrial, railroad and utility valuations represent about 39% of the county's total and 66% of the personal property valuations on which taxes are paid. They occupy about 5% of the land area.

Of the \$782 million total, industry - utility - rail valuations totaled \$317 million. Their personal property accounted for \$142.6 million of the \$2617 million listed for 1959.

With a \$251 million valuation on which tax rates were based, the Quad-Cities accounted for over 30% of the county's total. Wood River township comprised 29% and Alton about 16%. Thus, the industrial areas provided more than 70% of the total for all 24 townships in the county.

MORE ABOUT

Big Council

(Continued from Page 1)

long; it will not take care of a lot of people, but the individual who elects is the one to do it. Bad officials are elected by the citizens who don't go to the polls.

No Assurance

"A community has no assurance that it will get a manager with experience and ability in the absence of balances poses a problem, even though the council can discharge a manager. The manager form is tailor-made for a political machine, with the council all-powerful. It can cause voters to lose interest in their city government, believing that all of their problems have been solved. Yet, there is an absence of the leadership that can be provided by a strong mayor-council government."

The St. Louis mayor's views are endorsed heartily by Mayor Davis, who has discarded the neutrality he claimed in September 1936 when he appointed a municipal government committee to report in September 1937 on various forms of government.

Managerial government was being discussed in 1936, and the committee study was regarded as a factor in delaying a direct move, such as finally occurred this year. Meanwhile, Davis was elected to a four-year mayor term, his third, in April 1937. The committee never issued a report.

Sees Political Motive

Why is Davis urging city employees and the public to vote down the Oct. 24 referendum? Because he is convinced the proposal is a direct challenge of his administration motivated not to obtain a simplified governmental structure but to aid the ambitions of "frustrated politicians."

Interviewed by the Press-Record, the mayor said he feels that he has been able to bridge the gap between the theoretical opposites of a man with the warmth to gain election and the coolness to be an administrator. A successor also could gain efficiency rapidly with the aid of carry-over city employees, he believes; in any case, the advantages of more direct representation for the public offset any disadvantages of the mayor-council plan.

"This would destroy representative government, and it is wrong for Granite City," Davis said. "We have had progress. We are an All-America City. If the city was corrupt and inefficient and in debt, it would be one thing, but to make a change just to make a change is wrong. I will do all I can to fight it."

The mayor is answerable to the voters, and a city manager is not. He has a contract; he can say, "If you want to fire me, pay me my salary." (Editor's note: Most city managers do not have contracts, nor a definite term of office.)

Discussing "salernoism country," under which council members usually head each other's recommendations about their own wards and schedule improvements in each neighborhood, Davis said he feels the practice has worked to the public's benefit in Granite City.

Namook Area Progress

"The best answer is the development of the Namook area. Since it was annexed, there has been very good cooperation from the other aldermen. They could have left it isolated, and it would not have developed as it has. Namook streets are better now than they ever were."

The mayor noted that some sponsors of the manager proposal have criticized his administration for "gold-plated sewer," the "gold-brick fire station" and improvement of Cayuga street.

"The cost of Namook sewers will be less than the cost of installing a cesspool and having it cleaned. The bond issue was for 30 years, and it's now in black and white at 15 years, and I'm sure it will be paid off in 11 years, at a cost of about \$250 to each family. Where can you get a cesspool and cleaning for that?"

"If we had not gone ahead at that time, it would cost twice as much now. And it would have been a dead city without it."

"We were criticized about the fire station cost, but before I showed it I checked with J. A. Sestrie of the St. Louis fire department, and he said that on a square-foot basis it was a good buy. They ask why it is so large. Ten years from now the city will say we didn't make it big enough. But because I put a few extra dollars so the city could

Boy's Arm Fractured In Fall From Bicycle

Randy Witter, 13, one of eight youngsters given emergency treatment Saturday at St. Elizabeth Hospital, suffered a fracture of the right arm in a fall of a bicycle. The son of Mr. and Mrs. Austin Witter, 3332 Red Road avenue, he was treated at 11:30 a. m.

Infants treated were Diana Price, 22 months old, daughter of Charles Price Jr., 2163 Lee street, who swallowed a penny; and Brenda Bettis, 20 months old, daughter of Carlos Bettis, 424 North drive, who sustained a laceration to the sole of the right foot.

Bryan Hefner, three, son of Clay Hefner, 4733 Warnock street, stepped on a nail; Mark Hays, three, son of Lynn Hays, 2231 Miracle avenue, received a forehead laceration when a rock was thrown while children were playing; Jane Gabriel, seven, daughter of Mr. and Mrs. Henry Gabriel, 2826 Terrace lane, suffered a small laceration to the right side of the face from a toy gun; and Terry King, four, son of Cetus King, 2824 Washington avenue, received a cast for a right ankle fracture sustained Sept. 27 when his bicycle was struck by an auto.

Also treated at the hospital Saturday was Willie E. McDonald, 29, of 1600 Columbia avenue, Madison, who twisted his left ankle.

have a building it could be proud of. I was criticized.

"I said I would veto the Cayuga street widening and resurfacing if it was passed at \$100,000. The actual cost of the work was \$15,000. I was told by the engineer that something had to be done or it would deteriorate."

Economy, Efficiency

Joining the discussion, City Attorney William Beatty stressed that spending has increased in some manager cities. If they are going to talk about operational economy, they should tell how they would improve efficiency. They have not showed where they can change the existing operational structure to save money."

Davis agreed, saying the Alton city manager was able to bring about expanded services because "he ran into a \$200,000 to \$300,000 city sales tax cut."

Displaying an Alton budget and citing expenditures for various city departments, the mayor said city managers generally are paid more than mayors and in Alton there are "doctors, attorneys and triple engineers."

Conceding there have been numerous annexations since he adopted managerial government, Davis maintained that Granite City has had more than its share of annexations and population growth. "We've gotten A. O. Smith Corp., RC Cola, Air Products and others at the Nesco. What's the matter with Alton?"

"There is more citizen interest with the present system," the attorney said. "The St. Louis papers talk about a non-partisan court plan, but they admit that to some extent the people have not got a voice in it, and if you get a bad judge it's almost impossible to get rid of him."

"Public Losses Interest"

"I have talked to several people from cities that have city managers. There is a definite tendency on the part of the public to lose all interest in their local government. The public says, 'We hired him. Now let him worry about it.'"

"This takes government away from the people. The public becomes apathetic, and efficiency suffers. Look at the commerce commission. It's supposed to have trained, professional people, out of politics. But the public doesn't have a chance with them. People talk about politics as something bad, but it's good."

Pointing out that school elections often are "kept out of politics" and that the total vote usually is far less than in city elections, the two officials said the policy of hiring a professional administrator works for school districts because they have an "isolated problem" education.

"Need For Direct Contact"

"Cities have so many things in which there is a need for direct contact with the people—police, fire department, library, garbage collection, street maintenance," Beatty asserted.

"Under the manager system, one or more areas would be without any representation," he noted. The mayor cited another potentiality: "With only four on the council, you might have all four coming from one heavily populated area, such as Namook."

Beatty took the view that while managerial government may eliminate "buck passing," the present Granite City structure has a similar advantage. "In our strong mayor system, all responsibility except for street cleaning can be traced to the mayor. Even under the manager system, the people would still elect the superintendent of streets, unless the council voted to change this."

Auto-Truck Accident

A pickup truck and an auto were involved in a collision Thursday afternoon at 20th Street and Edwardsville road. Police said the truck, operated by William M. Smith, 33, of East St. Louis, was going east on Edwardsville road and making a left turn, while the auto was being operated behind the truck by Billy J. Butler, 23, of 2164 Cleveland Blvd.

Weed Fire Extinguished

A weed fire at Maryville road and Victory drive along the old Times Terminal Railroad right-of-way at the Glenview subdivision, was extinguished yesterday afternoon by Granite City firemen from the Namook road station. The blaze spread to utility poles. Firemen were at the scene 30 minutes.

Auto Hits Parked Car

An auto driven by Carl T. Wood, 20, of 1513 Bryan avenue, went out of control Thursday evening and crashed into the left side of an auto parked in the 2000 block of Bryan avenue, owned by William Earhart, 2134 Edison avenue. Wood told police he was pulling away from the curb when his motor stalled, and as he restarted it, the car went out of control and across the street into Earhart's auto.

\$100 Loss In Car Fire

A cigaret believed to have been thrown into a 1935 auto while its owner was in a beauty parlor caused an estimated \$100 fire damage to the vehicle's front seat at 3:30 p.m. Friday. Firemen who answered the call at 1550 St. Clair avenue said the owner was Sade Hagopian, 1731 Olive street.

GC Public Library Opening Record Lending Department

A new service—a record lending department—has been added at Granite City public library, it was announced today by Mrs. Mary Gene Knutson, librarian.

The new department, which was developed with the cooperation of the Evening Etude Music Club, will begin functioning tomorrow.

"We have added the new service for the people of our community with a generous donation from the music club whose members have shown great enthusiasm for the project," the librarian said.

"We have set up a program that will afford educational and cultural advantages to everyone in our city. In selecting albums, we have chosen varied music and we will learn soon what records are circulating to help us in future purchases."

Five-Day Loans

Mrs. Gerald Walters of the library staff is heading the record lending department, and the records will be loaned for five days to adults only. The library stipulates the records be played only on Hi-Fi or stereo type players. A two-cent a day fine will be assessed for overdue records and a charge will be made for any that might be damaged. The staff asks that the records be returned to the desk in the library rather than being deposited in the outside book return.

The records now available for circulation are—

Beethoven—Symphony No. 3 "Eroica," Rex Harrison-Jule Andrews—"My Fair Lady," Rimsky-Korsakov—"Scheherazade," Tchaikovsky—"Piano Concerto No. 1 in B-Flat Minor," Franck—"Symphony in D Minor," Haydn—"Symphony No. 9 in G Minor," Moussorgsky—"Pictures at an Exhibition," Rimsky-Korsakov—"Capriccio Espagnol," Prokofiev—"Peter and the Wolf," Brahms—"Concerto in D Major for Violin," all gifts of the Evening Etude Music Club.

Language Courses
The record selection includes "Children's Language Course" for ages 6 to 12 years in Italian, German, French and Spanish; Cabot—"German for Children" (two albums) ages 7 to 14; Round the World Language Record Course—German, French, Spanish and Russian; as well as foreign language records—"Christmas in Poland," "Christmas in Italy," "Christmas in Germany" and "Christmas in France."

There also is a Walt Disney series—Peter and the Wolf, The Sorcerer's Apprentice, Peter Pan, Hamlet and Cinderella; along with Robert Frost Poetry.

Other Selections
Other records in the new department include—Ella Fitzgerald sings "Rodgers & Hart Song Book," Beethoven—"Sonata No. 14 in C Sharp Minor," Grieg—"Concerto in A Minor for Piano and Orchestra."

Chamber Gives Warning On 'Free' Cars, Washers

Harlan Dohy, manager of the Tri-Cities Chamber of Commerce, today warned residents to beware of the friend, neighbor or salesman who wants to let them in on a plan whereby they can get a new washer, vacuum cleaner or even a shiny new automobile "absolutely free."

Dohy said this seemingly beneficent overture is the initial step in the "referral selling" scheme. Instead of getting something-for-nothing, victims find themselves committed by contract to pay for some article they did not plan to buy and perhaps can ill afford.

"For some time, a sales scheme has been sweeping the country which has victimized a great many gullible people," he commented. "Known as 'referral selling,' this scheme exploits the desire to get something-for-nothing."

"In essence, here is how it works: A friend or neighbor who is already participating, asks you if you would like to find out how you can get a new vacuum cleaner, garbage disposal unit, fire extinguisher or even an auto without cost. If you bite on this tempting bait, your friend sets up an interview for a salesman who will come to your home to tell you all about it."

"The salesman gives a long and convincing story about the advertising cost involved in the usual method of selling. He explains that if such costs can be eliminated by having someone recommend another person, as much as \$150 can be paid to individuals who will advertise their car or appliance. For every one recommended who 'qualifies,' the participant will receive \$100, plus \$50 for each one the friend recommends."

"When the prospect's appetite is whetted, the salesman explains that to qualify an order must be placed and papers signed. High pressure selling is then used to convince him that payments he will get for referrals will more than meet the payments he must make. Actually, the victim is committed to buy—often at an inflated price—and the contract is binding regardless of any income secured from referrals."

"Since this scheme involves an endless chain, it is obvious that prospects for additional sales are soon exhausted. The sales pitch develops into the usual monthly payments. This scheme has been condemned by the National Better Business Bureau, with which the Chamber is affiliated, the U. S. Post Office Department, and most states. Consumers can avoid entrapment by buying from local dealers known to be reliable."

Oct. 15 Last Day To Seek Scholarship Exam

During the next ten days, approximately 30,000 high school seniors, including Quad-City students, will complete the first step in qualifying for Illinois State Scholarships.

In commenting on the 1960 program, Gov. Stratton has emphasized that "each day the importance of higher education becomes more and more apparent in our state and nation. The scholarship program of the state helps help for those students qualified scholastically who without financial aid, might not be able to continue their education beyond the high school level."

All students interested in being considered for a state scholarship must demonstrate their ability to do college work by completing the examination of the American College Testing Program on Nov. 5 at 8 a.m. Application materials for the ACT program have been supplied to high school principals, and a deadline of Oct. 15 has been set for receipt of applications to take the examination.

Personal Visits By Presidential Candidates Helpful To Voters

Quadt-Cityans were fortunate today in having an opportunity to see and hear Senator John F. Kennedy, presidential candidate of the Democratic party.

Although the major campaigns are becoming well known in each home through television, there is still something to be gained by seeing them face to face and observing their gestures, responses and general behavior as they speak, greet well-wishers and react to local crowds and their questions.

Now that we have been visited by the Democratic candidate, it would be a good thing if the Republican standard-bearer, Vice-President Richard M. Nixon, also could arrange his schedule to come here. Then this community would be among the few in the nation to have the advantage of personal visits by both candidates.

Today's appearance by Sen. Kennedy and a like visit by his opponent could create additional interest in registering for the November election, even though voter registration already has reached record proportions here. Those still unregistered have only one more week before the deadline.

Area Has Much To Gain From State University, Welfare Bond Issues

If any Quadt-Cityans are still in doubt on how to vote on the two state bond issue proposals Nov. 8, they should make up their minds affirmatively and then begin persuading their friends to do likewise. The Illinois Metropolitan Area has much to gain from both the university and mental hospital construction programs, and both are sound from a fiscal standpoint.

So many individuals and organizations have endorsed the bond issues that they literally are too numerous to mention. This is unusual, because vocal opposition traditionally develops for such large expenditures even when they are badly needed.

The fact that the Illinois Agricultural Association is the only major organization opposed is a testimonial to the widespread recognition of the need for expansion and improvement of university and institutional services. Even the IAA does not disagree on the basic problem, but it contends that the buildings can be erected out of current income. Those supporting the bond issues feel that the need is too acute to depend on this slower and more uncertain method, and they point out that the proposals do not involve raising the state taxes. The IAA stand is believed to be motivated partly by its preference for a state income tax.

All parts of Illinois stand to benefit, but this area in particular has much at stake. The \$195,000,000 university plan includes \$25,000,000 for construction of a large four-year state university between the Quad-Cities and Edwardsville. The \$150,000,000 welfare bond issue includes \$8,500,000 for adding facilities at the state mental hospital in Madison county.

With so many favoring the bond issues, it would seem that they are certain of passage. But the outcome remains in doubt because of the rule that failure to vote amounts to the same as a negative vote. A vote on the two proposals — and a favorable vote — is strongly recommended to all.

Quad-City School Spending

Up 25%, Tops \$10,000,000

Proposals such as year-round school — designed to limit costs while not impairing the quality of education — take on new importance when the current level of Quad-City school spending is considered.

Inflated due to extensive construction in both the Granite City and Madison districts, expenditures in the year ending June 30 reached \$10,805,124, an increase of \$2,201,827 or 25% over 1958-59. Quad-City public school disbursements of \$8,603,297.

With \$8,083,153 spent in Granite City, \$2,149,907 in Madison and \$572,064 in Venice during 1959-60, the \$10,805,124 community total consisted of \$3,224,600 for education, including the school lunch program; \$4,860,433 for building, including maintenance, construction and bonds; and \$120,091 for transportation of pupils. The figures do not reflect the cost of operating private Quad-City parochial schools.

Substantial amounts come from the state and other sources; state funds distributed here have risen sharply in the past decade, with over \$1,000,000 going to the Granite City district each year and over \$400,000 to the Madison district. But the bulk of the \$10,000,000 spent here must come from local real estate and personal property taxes.

When people pay their taxes, they often express concern over municipal, park, levee and other spending. Such criticism is justified because of the heavy burden of six governmental agencies accounts for a portion of the taxes. But more than half of the taxes paid go to the schools, and the decisions of the three school boards have the greatest impact on their tax bills.

Sentiment, Truth Distorted By Official Communist Party Line

The Communist world reserves the right to rewrite history, but Red China surely has gone too far — re-defining love, beauty and truth to fit the harsh realities of its regime. A Chinese writer's belief that beauty is "above reality, above class and above politics" has just been severely criticized by the government of the People's Republic of China.

The party line is that "truth is not something almighty" and that beauty must have utility and serve the "political ends of the proletariat." In setting themselves up as the judges, the Red leaders have swept aside all opposing arguments with the comment: "What is considered true by one class is exactly what is considered untrue by another."

Another Chinese, Wang Jen-shu, a prominent writer until he fell out of favor last year, made the mistake of saying that "the search for love, the attachment to maternal love, the joy of life, the hatred of death, the craving for a happy life and the admiration of gallantry" are common to all mankind.

"There is fundamentally no possibility for people of different classes to share common sentiments," the magazine China Youth, says, "nor is it possible for persons of different classes to fall in love." This seems like a surprising statement from an ideology that on the surface is devoted to equality for all. It can be expected that the united nations, currently warring between the roads to freedom and Red slavery, are aware of what is being said and done behind the Iron curtain.

The bride wore a gown of white tulle with a scalloped neckline trimmed with lace and long wrist-pointed sleeves. The skirt was full and a fingertip veil of tulle was held in place with a rhinestone crown. White carnations made up the bridal bouquet.

The bridesmaids were attired in light blue satin gowns with matching cummerbunds, and the groom attendant appeared in light pink. All wore tulle headpieces and carried bouquets of pink carnations.

The newlyweds will make their home at 2257 Lee avenue. The bridegroom is employed in Overland, Mo., and Mrs. Seim is employed in St. Louis.

IN THE CAB of a locomotive, William H. Ferguson, GMAO engineer of Granite City, feels of home. He retired last week after 50 years of railroading.

Ends 50-Year 'Romance Of Rails;' Stables Steed

At 3:35 p.m. Friday, William H. Ferguson stabled his "iron horse" for the last time. And it was a moment of memories, eye-misting recollections and nostalgia for the Gulf, Mobile & Ohio Railroad, a railroad engineer whose "romance" with the rails dates back a full half-century to the time he started as a fireman, and soon advanced to engineer.

Mr. Ferguson is 74. He and his wife live at 2154 Lynch avenue, Granite City, previously lived for many years in Venice and, for a short period, were Madison residents.

As a veteran at the throttle, Ferguson has piloted both coal and diesel engines in his 50-year service. One reorganized recently by the GMAO in the handling of a golden anniversary pin.

There was no ceremony when Ferguson retired. He left the final yards roundhouse for the final Friday. Old colleagues came to bid him good-bye, and he left in retirement.

However, a family-get-together, commemorating the occasion was held over the weekend at the Ferguson home. Attending in addition to Mrs. Ferguson were the couple's two daughters, Mrs. Lorena Tibbs, Mr. Vernon and Mrs. Edna Knowl, Granite City, and five grandchildren.

In his 50 years of railroading, Ferguson has traveled thousands of miles, but never piloted his "iron horse" far from his home. He operated in the Venice yards complex.

Ferguson, known as "Iron Steed," and stabled his "iron steed" Friday. Will no doubt go home to visit it from time to time.

Mr. and Mrs. Ferguson plan a motor trip to Texas later in the fall, a kind of second honeymoon to the Lone Star State.

Married 53 Years
 The senior Ferguson is a long-time member of the Brotherhood of Locomotive Engineers, and has been married 53 years. Sept. 25 was the anniversary.

Ferguson has traveled thousands of miles, but never piloted his "iron horse" far from his home. He operated in the Venice yards complex.

Smoke Ejector Lost Off GC Fire Dept. Truck
 A smoke ejector, which is a 24-inch portable fan, was lost Thursday afternoon off the Granite City fire department ladder truck while on two simultaneous alarms.

The ejector, which was carried on a running board, dropped off while the truck was answering a call in the 1500 block of Madison avenue or enroute over 18th street to a second alarm in the 1500 block of Madison avenue where a garage was burning.

It is believed a strap broke from the ejector, which was used to remove smoke from buildings. Anyone having knowledge of the loss is asked to notify the main fire house.

Driver Arrested Following Crash In GC Today
 A charge of failure to yield right-of-way was placed against Nick Antonovich, 65, of 10300 West street, who was involved in an accident about 6:40 a.m. today. He posted his driver's license.

Police noted Antonovich was traveling north on Madison avenue and making a left turn onto 12th street. He was involved in an accident with the southbound auto of Robert E. Lee, a 1958 Chevrolet, on 12th and blvd. No injuries were listed.

Selling Your Home? CALL REINHARDT
 A surprise birthday party and pot luck dinner was given for Mrs. Irene Abbott at the home of Mrs. Bill Van Scoy, Mr. and Mrs. Harvey Jamison, Mrs. Hazel Lomax, Mrs. Doris Stewart, Mrs. Bill Van Scoy, Mr. and Mrs. Margaret Moore, Mr. and Mrs. Roy Mendall, Charles Pasch, Mrs. Edna Pasch, and Mr. and Mrs. Dudley and the minister, Martin Harris.

The Guild girls of Cedar View General Baptist Church met Thursday evening at the home of Mrs. Lorraine Thompson. A prayer was given by each girl, and the group elected new officers.

Plans were made for future work for this year, and the girls were named for secret pals. Refreshments were served to Judy Grigby, Maria Morrison, Sharon Morrison, Sue French, Patricia Crump and Patricia Leonard.

Rhonda Riddle entered the Army and began training at Fort Leonard Wood in Missouri last week.

Was last taxed in the name of C. Norman Jones. The time for redemption of said real estate will expire on the 12th day of January, 1961.

On the 3rd day of October, 1960, the undersigned filed a petition in the County Court of Madison County, Illinois in the same proceeding in which the said judgment and order of sale was entered.
